Features

- Made from durable plastic that is water, mildew, fade, and tear resistant
- All-weather protection and construction cover
- Rustproof aluminum grommets located every 3 feet along all edges
- Reinforced at the hems with heat sealed seams

Applications

Heavy duty tarps are often used for the following:

- Floor & furniture covering for indoor construction/repair
- Covering vehicles, boats and RV's for a long period of time
- Canopies and tents
- Covering a storm-stricken roof
- Keeping outdoor items safe from the elements
- Covering hay bales and woodpiles

Technical Specifications

Material: Plastic

Color: Blue, Brown/Green

Sizes: 5' X 7' - 40' X 60'

Packaging: Packaged individually

Country of origin: China

Usage Instructions

- Unfold tarp and cover the surface that needs protection
- Use the grommets located every 3 feet along all edges to secure tarp with rope/cable/zip-tie
