

## BSVIPERHR

### 1/4" Twin Hose 50' Retractable Hose Reel

#### Features

- Upgrade your welding setup with our state-of-the-art hose reel. Designed for oxy-fuel twin hose, it offers unrivaled convenience and ease of use.
- Engineered for long-lasting performance, this hose reel features a full-flow swivel joint and a robust swivel body enhancing durability, and reducing wear and tear over time.
- Spool features smooth beaded edges, enhancing both user safety and equipment longevity
- Effortlessly extend and retract your hoses with an automatic spring rewind and locking system, saving you time and energy during setup and cleanup.
- Crafted to hold up to 50' of 1/4" oxy-fuel twin hose, this reel sets a new standard in convenience.
- Includes mounting bolt set

#### Technical Specifications

- **Max Hose Width:** 1/4"
- **Max Hose Length:** 50'
- **Material:** Corrosion Resistant Powder Coated Steel
- **Color:** Chrome or Black
- **Packaging:** 1 Reel
- **Country of origin:** China

#### Applications

- Welding
- Automotive Maintenance
- Pipelines
- Construction

#### Usage Instructions

- Ensure the hose reel is secured on a flat, stable surface before using.
- Secure hose nozzles to the connector, and wind the hose around the reel.
- For use, pull hose out to desired length.
