

GS6LN

**Locking Plier 6" Long nose with
cutter.**
(Compares to Irwin 6LN)

Features

- Features a built-in cutter for slicing through materials
- The elongated nose is specifically shaped to navigate and function in cramped spaces where access is limited.
- Adjustable screw enables precise pressure control and seamless material alignment with an easy release.
- Designed for easy operation, the pliers disengage with one hand, eliminating the need for a trigger mechanism.

Technical Specifications

- **Material:** Chromium Vanadium Steel
- **Packaging:** Packaged Individually
- **Country of origin:** China
- **Size:** 6"
- **Jaw Capacity:** 2-1/4"

Applications

- Welding and Cutting
- Construction
- Automotive
- Construction
- Manufacturing

Usage Instructions

- Open the pliers and adjust the screw to set the jaw width.
- Position the long nose around the object and squeeze the handles to lock.
- Use the built-in cutter to cut small materials if needed.
- Pull the release lever to unlock the pliers when done.
