

GS7WR

Locking Plier 7" with Curver Jaw and cutter.
(Compares to Irwin 7WR/ Irwin 702L3)

Features

- Features a built-in cutter for slicing through materials
- Curved jaws offer a secure grip on irregular objects
- The curved design evenly distributes force across multiple contact points on fasteners, allowing for high torque applications.
- A convenient trigger release allows for seamless adjustments and removal
- Engineered for toughness through specialized heat treatment for the alloy steel.
- Adjustable screw enables precise pressure control and seamless material alignment with an easy release.

Technical Specifications

- **Material:** Chromium Vanadium Steel
- **Packaging:** Packaged Individually
- **Country of origin:** China
- **Size:** 7"
- **Jaw Capacity:** 1-1/2"
- **Throat Depth:** 1-1/2"

Applications

- Welding and Cutting
- Construction
- Automotive
- Construction
- Manufacturing

Usage Instructions

- Open the pliers and adjust the screw to set the jaw width.
- Position the curved jaws around the object and squeeze the handles to lock.
- Use the built-in cutter for cutting wires or small materials.
- Pull the release lever to unlock the pliers when finished.
