

MMPC65DV

Metal Man 65A Plasma Cutter

Features

- Lightweight, powerful Inverter technology
- Dual Voltage, capable of operating with 120 or 230 Volts
- Cuts all electrically conductive materials
- Pilot arc for cutting expanded metals or fencing
- Small heat affected area for reduced warpage
- Indicator lights for easy troubleshooting
- Built in water separator extends consumable life
- 14 pin port CNC connection for Plasma table interface

Technical Specifications

- **Material:** Material
- **Cutting Thickness:** 1" Clean cut, 1-3/16" Severance cut
- **Power Supply (V/HZ):** 120/230V, 50/60HZ
- **Input Current (A):** 120V: 24A, 230V 47A
- **Output Current (A):** 120V: 20-22A, 230V: 20-65A
- **OCV (V):** 305V
- **Rated Output (% at A):** 120V: 40% @ 22A, 230V: 35% @ 65A
- **Weight:** 24.25 Lbs
- **Packaging:** Packaged Individually
- **Country of origin:** China

Package Contents

- MMPC65DV 65A Plasma Cutter
- 15 ft Trafimet style Plasma Torch
- 10 ft Ground Cable/Clamp
- Two 65A Torch Nozzles
- Two 65A Electrodes

Replacement Parts

- **105400119** – Trafimet Style 60A, S65 Plasma Torch Nozzle (1, 3 or 10 pack)
- **105400185** – Trafimet Style 60A, S65 Plasma Torch Electrode (1, 3 or 10 pack)
- **MMCV1118** – Trafimet Style Plasma Torch Standoff 60A (1 pack)
- **105400041-2PK** – Trafimet Style S45, S65 Plasma Torch Diffuser (2 pack)
- **105400038-1PK** – Trafimet Style 40A, S45 Plasma Torch Cover (1 pack)
