

RTP2MBP Cable Connectors

ARC Star™ cable connectors are designed to efficiently conduct the current through a detachable type connector. Brass bodies are precision machined from heavy specially shaped brass extrusion. The positive lock-tight action known as, Cam action design, allows lock in with a twist and pulls the two halves together tightly. Connector covers are resistant to heat, cold, abrasion, ozone, oils & solvents. Tapered ends lock out moisture, oil and dirt. Connector covers are specially compounded to be flame retardant. Terminal connectors replace cable lugs for fixture to machines allowing for quick disconnect of cables.

35% : 400 Amps	2/0
	
60% : 300 Amps	70mm ²

Features:

- Premium quality brass connectors
- Interchangeable with Tweco connectors
- Machined from brass alloy bar stock
- Heat and oil resistant covers
